*Unprecedented challenges of 2020  
Forced a major introspective consciousness!*

The World Congress was created in 1990 to cause a powerful community and alliance of like-minded people to advocate for a natural healthier society, mother-earth, and universe; to develop partnerships, create safe environments; and to explore the boundless forces of life.

We are all energy and part of a limitless sky and universe! We encourage your wildest imagination at our Congress! Let yourself "BE". The past and the future are in the PRESENT now. Let us re-enchant the world and our lives together despite the pandemic chaos! A New Quantum Life Path needs to take place. Know that YOU create your own destiny. Now is the time to take charge! Rediscover the inner brilliance with which you were innately endowed from conception to eternity!

For over 20 years we have combined both Science and Art in a safe environment to explore the boundless forces of consciousness and life. We dare to dream, and explore the "spectacular", the "extraordinaire", the "unbelievable" and the "unknown" to re-enchant the world and foster research establishing New Miracles in Life.

Our original goal was to promote Qigong and Traditional Chinese Medicine combined with Complementary and Alternative Medicine (CAM)/Natural Healing to be solidly integrated into the mainstream health and life systems. We have made remarkable headway, most importantly the progress still continues today! Wellness promotion practices must now be compensated,

not just western medicine, chemicals, diagnostic procedures, and surgery after one becomes sick or ill.

We have played a critical role in major Policy decision endeavors at many levels: from involvement in the President's White House Commission on Complementary and Alternative Medicine Policy (WHCCAMP), to the respected sanctuary of research at NIH/DHHS, to the health and education services for the community and general public. With all the Policy meetings, financing for Natural Healing was never broached.

It is important that we seek financing NOW. Without adequate funding, Chinese Medicine and Natural Healing will remain on the fringes, even though science is proving it is effective, where modern western medicine had not been. Natural Healing will remain "Third Class" and not be considered first class unless we secure funding for these practices. Do your clients have to personally pay out of pocket? Or do you pay out of pocket?

Our major focus of our 21st World Congress is to be the springboard to secure on-going fund raising that will support 3 vitally important, far-reaching objectives:

1. Provide participants - ranging from consumers, practitioners, to policy-makers, exposure to some of the top experts in the world, where they will learn new skills for self-healing, healing of others and the planet, and increase their personal abundance. Peace will prevail.
2. Develop a strong unified Wellness, CAM, Ethnic Medicine such as Traditional Chinese Medicine/Qigong, and Natural Healing practice financial structure that will pay for folks who choose to stay healthy. The present insurance primarily caters only to those who are sick and utilize modern western medicine practices. Do you or your patients/clients/students pay out of pocket for these services now?
3. Explore and implement integrative services to eradicate the desperately dangerous escalation of COVID-19 and unnecessary deaths. We will investigate and implement natural healing resources such as Traditional Chinese Medicine, mega-doses of intravenous Vitamin C, herbs, diet, and more, that had been proven successful but ignored. CDC guidelines are important but must include the most essential daily practice of teaching each person how to build an internal powerful immune system that will resist disease! At the same time we will also deal with other major challenging conditions!

We need people and money resources and a strong development team. We need you and family/friends/associates to join us at all levels of commitment from the ground floor!

## **This is the most exciting of times...Will you join us?**

Our 19th World Congress held in Japan and our previous historic Congresses in Italy, Canada, and the USA (always volunteer-run), have been life-changing sheer magic, scintillating, exploring Life in all realms of the Psychic/Spirit, Emotional Mind, and Physical Entity, from past lives to Life after Life.

This Congress has contracted Dr. Jack Fu of the World Federation of Integrative Health, to organize this Congress. Already some of you have been in touch with and/or will be hearing from him and his team concerning planning, programming, logistics, and execution processes.

Also, we have a formidable team of Volunteers who comprise our Organizing Committee for the Congress: Rose Hong of GDTV and Global Healing Alliance; Gigi Oh of TC Media; Dr. Mary Jo Bulbrook, President Akamai University, and Global Healing Alliance; Dr. CJ Rhoads of Health, Prosperity, and Leadership; Bill Douglas of World Tai Chi and Qigong Day; and Ann Colichidas of Sonoma Chow Qigong and East West Academy of Healing Arts.

Now without traveling, from the comfort of your own home anywhere in the world, you have the unique opportunity to explore the love that the universe holds for you in all its various forms/vibrations/frequencies. Life is energy, love, in a time-space continuum...so, there is no death as many fear.

You will learn in our seminars and workshops from over 80 of the world's top experts and icons how to immediately put these new skills and ideas in healing, optimal living, life management, policy and financial matters, and more, into practice with success. Getting results where it was thought to be impossible!

So, come and stretch your spirit, mind, and body with us! Take flight like the "Phoenix rising from the Ashes" to create daily "miracles", renewing the idea that "Life is a Miracle" and everything is possible!  
Enjoy lots of fun in serious learning!

Loving Qi for optimum health of spirit, mind, and body!
