ALERT!! A MISSING KEY TECHNOLOGY: All Things Go Better With Nature's Love. Invoke it.

Our secretive world often leaves us unaware that a critical key to increasing personal and global well-being is undeservedly ignored so our problems continue to increase. The eco-art of this unused but available social technology is a tool that reinstates the loving organic core of science and helps us make each day a better tomorrow.

Sadly, this heartfelt fact is painfully obvious: moment-by-moment, our war with Nature is breaking the world and we don't apply the scientific remedy for this catastrophe because our lies make us to deny its significance.

To stop our bias, lies and war and increase the health of life in peaceful balance, we must apply this prime, evidence-based truth.

The fact that you are reading these words is the greatest truth in your life that you can trust and it is not Nature, God, Love or Honesty.

Do you know what your Great Trustable Truth (GTT) is or how to apply it? Without our GTT, we continue to create and endure the deceit that increasingly injures the world including us.

You may not know your GTT because, negligently, our education, counseling and management leaders omit teaching and applying it. Like a short circuit, no law insists that they include it because our legal and political communities have also learned to snub it.

We can't use our GTT if we don't recognize what it is or how to activate our 54 natural senses to make it work. Our lie of omission has socialized us to be so prejudiced against the natural world that, as the UN declares, [we are at war with Nature](#).

Our battlefield traumas wound us and this makes us excessively want. For satisfaction, we further plunder our Planet's life to create and benefit from our artificial technologies, healing and fulfillments. However, without GTT these short-term band-aids have adverse side effects. They don't adequately replace our rewarding, but now invaded, love of and from Nature.

Our lies don't exist in natural areas because the natural world is speechless. For those who know their GTT, in Nature its unifying energy is a 55 year tested and proven stimulant, an appropriate preventative and remedy for our falsehoods, war and injuries.

Like a safe, biological power tool, outdoors our GTT adds our inherent 54-sense wisdom to any thought, feeling or discipline. This transforms our destructiveness into reasonable love forever, moment by moment.

At little expense, by 85%, GTT increases the effectiveness and decreases the costs of environmentally friendly healing and relationships while it reduces our destructive climate changes. In major ways we profit when we add GTT to

- any individual and their relationships
- health and life insurance companies
- public health, safety and welfare endeavors
- therapy, education, conflict resolution, environmental, spiritual, medical legal and recovery programs
- government agencies for Defense, Education, Environmental Protection, Health, Welfare Correction and Homeland Security
- politics that responsibly help the lives of those who have been injured by the war, no matter their race or social attachments.

Our Earth Misery Crisis

As GTT-deprived people, since 1974 our prejudicial war against our planet's life has created today, on average, Earth's 48% loss of wildlife and natural resources accompanied by a 45% increase in mental illness, obesity, climate change, oceanic oxygen depletion, loneliness, atmospheric carbon, mass shootings and excessive stress. The stress alone has increased corruption, child abuse, unhappiness, mistrust, unfairness, political and economic extremes, destructive cravings, dependencies, addictions and many other disorders.

Be honest. Look around. You know it's true.

With alarm we need to hook up with another planet half the size of Earth to replenish what our cravings make us overuse each year. Nobody knows where that other planet is located no less how to connect with it. Meanwhile, we continue to spend over 99% of our lifetime out of tune with Nature's wise integrity around, in and as us. We forget that everything in Nature belongs so it doesn't create war or garbage.

Earth Misery has been called prejudicial, depressive, stupid, addictive, negative, abusive, suicidal, unethical, catastrophic, insane, uncivilized and terrifying. However, without including the transformative powers of our GTT, our education supports the unreasonable demands of our excessive, profit-based society. This abuse changes Nature's life into money while our finite planet's "resources" are already 50% overdrawn. This fraud is immoral and unacceptable yet, devoid of GTT, it increases yearly. Think about it. Can you easily distinguish our lies from the truth of your life?

The core remedy for Earth Misery is to activate our GTT and improve any relationship or situation. Can you believe or understand this if you don't know what your GTT is? (*Call 360-378-6313 now. Immediately learn and experience your GTT and be awarded the GTT book "How to Liberate Your Natural Essence"*).

Science works. GTT works because it scientifically unifies us in spacetime contact with natural areas and things. Then and there, our 54-sense verbal wisdom blends with the web-of-life's speechless love to dance in cooperative beauty, peace and balance. This lets the art of GTT scientifically correct our falsehoods as well as update misguiding spiritual, mystical and supernatural tales. That's how, when and where our words become trustable truths as demonstrated in paragraph three.

GTT: the impossible dream.

Without GTT, as wounded consumers, our continual need for artificial satisfaction increases Earth Misery. Our love of Nature excessively becomes our love of money and materials to the point that we block ourselves from using GTT as hope, faith, healing, support and justice.

GTT matters. Its quantum leap makes the "Do onto *others*" Golden Rule include Nature's plant, animal, mineral and energy community as *others*. Moment by moment, it produces the fairness and assistance that our lives deserve while it reduces Earth Misery.

Most of us acknowledge the vast difference between pre-Columbian North America 500 years ago, and today's Earth Misery created by our omission of our GTT. Why wouldn't you want to activate your GTT and help others do the same?

In your heart of hearts do you really believe that our society can meet its goals for personal and global well-being while without our GTT each of us continues to be a well-armed soldier in denial of our abusive war, overuse and prejudice against Nature?

GTT matters because it happily motivates and grows reasonable relationships anywhere.

Now is your GTT. Empower it. Share it. Unify. Don't face tomorrow's lies without it.
