

The following tuition and fee rates and tuition policies are effective commencing February 2021.

TUITION POLICY

Akamai University is a non-profit tax-exempt educational institution and as such we have established the fairest rates possible to provide access for students from across the international community. Our tuition is assessed as a one-time fee, due in advance, but payable over time in installments, as arranged with the University. We do not assess tuition on a class-by-class basis, semester basis, or annual basis, but by the program only in a onetime assessment. Tuition reduction allowances may be permitted when students have completed subjects at recognized outside institutions and successfully transfer these elements into their Akamai program. The application fee, the graduation fee and other incidental fees and charges are not included in the student tuition.

STANDARD DURATION OF DEGREE PROGRAMS

The University has established required minimum enrollment periods at each degree level. The minimum degree period indicates the number of years of full-time course enrollment required for graduation. At each degree level, full time status is equivalent to six credits minimum (except during the final examination and research stage of the program).

A maximum standard degree period has been established at each degree level, identifying the number of calendar years allowed for completion of the degree before continuation fees are assessed. Furthermore, a lenient maximum degree period indicates the total number of years allowed for completion of the degree.

Certificate and Diploma Programs (12-18 credits required)

As a minimum award requirement, Certificate and Diploma students must maintain enrollment at Akamai University for at least one-half calendar year. Most students can complete their program within one year. The maximum time allowed for completion of certificate and diploma program is two calendar years from the initial date of enrollment. Student may petition the Program Director for continuation beyond this maximum time, with payment of the applicable continuation fees. Extensions should not exceed twelve months beyond the standard maximum timeframe.

Associate's Programs (60 credits required)

As a minimum degree requirement, Associate's students must maintain enrollment at Akamai University for at least one calendar year. Most students can complete their program within two years. After two years, a small continuation fee is assessed each calendar quarter. Up to three years is allowed to finish all requirements for the degree.

Bachelor's Program Option #1 (60 credits program beyond Associate's)

As a minimum degree requirement, Bachelor's students enrolling for the final two years of their Bachelor's degree must maintain enrollment at Akamai University for at least one calendar year. Most students can complete their finishing degree program within two years. After two years, a small continuation fee is assessed each calendar quarter. Up to three years is allowed to finish all requirements for the two-year finishing degree.

Bachelor's Program Option #2 (120 credit program)

Bachelor's students completing the entire 120-credit program, not first completing the associate degree, must maintain enrollment at Akamai University for a minimum of two calendar years. Most students complete their program within four years. Up to six years is allowed to finish all requirements for the full 120-credit Bachelor's degree or one additional year beyond the normal time to complete the degree.

Master's Programs (40 credits required beyond Bachelor's)

As a minimum degree requirement, Master's students must maintain enrollment at Akamai University for at least one calendar year. Most students can complete their program within two years. Up to three years is allowed to finish all requirements for the degree. After three years, if students are in good standing and with approval of the administration, a small continuation fee is assessed in advance of each calendar quarter, to allow continuation.

Doctoral Programs (52 credits required beyond Master's)

As a minimum degree requirement, Doctoral students must maintain Akamai University enrollment for at least one and one-half calendar years. Most doctoral students can complete their program within three years from the date of initial registration. A maximum period of four years is allowed to finish all requirements for the degree. After six years, a small continuation fee is assessed each calendar quarter.

TRANSFER CREDIT ALLOWANCE

Akamai students may propose the transfer of appropriate coursework completed at recognized outside institutions. Immediately following formal registration, each new student's primary faculty advisor will conduct a careful review of college transcripts and make recommendation for acceptance of eligible transfer credits. Under guidance from nationally recognized accreditors in the United States of America, Akamai transfer credit guidelines have been established.

Akamai permits a one-hundred-dollar (\$100) tuition reduction for each approved transfer credit (calculated in semester credits) up to the maximum allowance at each degree level.

TUITION INSTALLMENT PLANS

Once the transfer credit allowances have been approved, the adjusted tuition will be determined, and a revised tuition agreement issued. The balance of the remaining tuition may be paid by any of the following payment plans:

Paying Your Down Payment in Installments

Many new students are delayed in starting their programs because of the size of the tuition payment needed by the University to cover its initial costs and overhead when new student formally register and start their programs. To ease the burden on new student budgets, Akamai permits as many as four monthly payments to cover the Registration Fee (down payment on tuition). Please contact the University administration to arrange an installment plan for your Registration Fee.

Plan A: Full Payment Up Front

Under special circumstances, a qualified student may be allowed to pay the balance of her or his tuition in full up front. Under such arrangement, the student is provided a 5% discount against the net tuition due after registration fees have been paid.

Plan B: Monthly Tuition Installments

Monthly installments begin the month following registration and extend for nine to twelve payments beyond the down payment (registration fee), as arranged with the Finance Officer. Monthly payments are due the first business day of the month. Note that each installment includes a \$25 accounting service fee. Plan D: Special Tuition Arrangements

Extended Long Term Payment Arrangements

Students may submit a petition for arrangements with the Bursar to pay their fees over a more extended period than is normally allowed. Such special extended arrangements are usually only offered to a student experiencing financial, medical or extreme family difficulties and under conditions when the student's educational program would be unavoidably interrupted. A student allowed to pay tuition over an extended period is nevertheless expected to faithfully maintain the installment agreement. Payments under special agreements are due the first business day of the month when payments are scheduled.

ACCOUNTING SERVICE CHARGES AND LATE FEES

[Accounting Service Charges](#)

[Late Fees](#)

Accounting Service Charges

An accounting service fee of \$30 is added to each installment. Accounting service fees are not refundable under the University's tuition refund policies.

Late Fees

Students who expect to face difficulties in meeting payment arrangements, as scheduled, should communicate with Financial staff at the University headquarters with ample time before the payments are due. Students should understand that tuition payments submitted according to installment arrangements are due by the first business day of the month in which the installment is scheduled. A payment received after the final business day of the month is considered late. Late payments will be subject to a flat late fee of \$30.00 per month per installment, continuously until paid.

BURSAR SUSPENSION FOR NONPAYMENT

Tuition payments more than 60 days delinquent may result in the Bursar suspension of the student's program, until such time as the student brings the account current. Should this occur, the outstanding late balance and interest in the amount of 3% per month (or part thereof) from the time of original due date must be paid in full before re-enrollment can take place.

RE-EXAMINATION FEES

Under special circumstances, students are assessed re-examination fees related to the comprehensive examinations required within their degree programs.

Bachelor's Re-Examination Fee

A fee of \$300 is payable with the Bachelor's student's written Petition for Re-Examination for the Final Examination. Requests may be sent by fax or email to meet the deadline, but afterward should also be sent by post and signed in ink by the student.

A partial reimbursement of tuition and fees will be paid if the student's written notification of withdrawing from the University is received within four weeks following formal registration. The refund will be reduced by the total amount paid, accrued, or incurred to contract with faculty related to the degree program and any other funds disbursed on behalf of the student. The student will be provided a clear itemization of all reductions to the refund. Courses officially dropped within this four-week period will not be included on the official transcript.

The date showing on the receipt for the registration fee is the official date of registration.

2. Manageable monthly or quarterly installment agreements.
3. Financing in terms of installment plans, extending over a 12–24-month period, depending upon the standard length of the degree program.
4. No credit approval required.
5. No interest charges added to student balances.
6. Accounting service charges set low for each installment (\$25).
7. Installments payable electronically by credit card, debit card, or online check, at the University's Online Payment Center. Payments or authorizations may be made by post, fax or email, as appropriate.
8. Special extended tuition installment arrangements available for students with demonstrated financial need.
